# General Terms and Conditions

---

## Terms and Conditions

---

All orders for KODAK products will be governed exclusively by these terms and conditions and any additional or contrary terms or conditions set out in customer's purchase orders or other documents shall have no force and effects.

Unless otherwise indicated, net prices are F.O.B. point of shipment and are subject to change without notice. No adjustments will be made because of price changes. Orders are subject to acceptance by KODAK.

Sales are made on the understanding that KODAK trademarks, trade names, trade dress and original packaging will not be misused.

If, at any time, it becomes necessary to discontinue shipments to any of our direct customers, to revoke or modify any provisions in this price list, or to allocate distribution of any of our products, we will take whatever action in our judgment is fair and appropriate.

### Transportation

All orders will be shipped F.O.B. point of shipment. However, all direct customers' orders which qualify for our Transportation Prepayment Plan will be shipped F.O.B. point of shipment, transportation paid to destination if shipment is made by carrier of our choice. Transportation costs will be paid by KODAK on each order having a basic net value of \$1000 or more (excluding tax), calling for single shipment to one destination, to be delivered within 5 business days after point of order placement, using Kodak's preferred carrier. This prepaid transportation plan applies only to regular photographic merchandise. Exempt from this plan are those items that are FTO (Finish-to-Order), require special handling, and orders which the customer requests a method of shipment other than that which would normally be used.

Claims will be made on behalf of customers by our Transportation Department providing the following conditions have been adhered to:

1. Carefully compare the number of pieces and condition of the shipment against the carrier's Delivery Receipt. If loss or damage is evident at time of delivery, the receipt given to the carrier must specify the details.
2. Do not discard packing material or cases until the contents have been carefully compared with the Packing Memo. If concealed shortage or damage becomes evident at time of unpacking, contact Kodak Customer Order Services within 14 days at EIAmericas@kodak.com or 1-800-621-3456.

KODAK will not honour claims from customers that do not conform to these time restrictions and as a result do not enable us to act on your behalf. All pertinent data should be documented at time of delivery and forwarded to KODAK promptly to enable us to comply with the above time schedule.

### Film Return Policy

Allowance of a return is at Kodak's sole discretion. A return will be accepted only after prior authorization by Kodak and subject to compliance with the following terms and conditions:

Returns must be made within 30 days of purchase. A 15% restocking and handling fee applies. Total returns are not to exceed 10% of the total volume purchased per project. Only unmarked, undamaged, factory sealed products of current emulsions will be accepted. A Kodak sales representative will provide the appropriate return address and preferred carrier(s). Product for return must be stored and shipped under recommended conditions. All returns must be shipped prepaid (unless otherwise specified by Kodak) in original packaging. Kodak will provide company packaging as needed for return shipments.

### Prices

Prices shown are extended only to those listed by KODAK as direct customers for the products included in the price schedule. While KODAK will endeavor to give 30 days notice, prices are subject to change without prior notice. No adjustments will be made because of price changes.

### Complaints on Sensitized Goods

On occasion we receive complaints from customers pertaining to sensitized materials, and requests for replacement or credit.

Complaints may arise from the handling or processing of the material rather than a defect in the material itself. For this reason such complaints should be referred to a KODAK Account Manager, or Kodak Customer Service, thereby allowing an investigation of such complaints.

# General Terms and Conditions—Continued

---

## Limitations of Liability

---

---

### Warranties

All products listed in this price list are sold without representation, warranty, condition or other liability of any kind, express or implied, including statutory implied warranties and conditions except such as is expressly stated upon, is packaged with, or accompanies such products. In no event shall KODAK be liable for consequential or special damages, and KODAK's liability on any claim for loss or damages in any way arising out of or in connection with the sale, resale, or use of any product shall in no case exceed the selling price of such product, or the part thereof involved in the claim.

### Terms Of Payment

Unless otherwise specified, payment terms shall be 2%, 30 Net 45 DOI for all orders of items listed in this catalog. Provided the customer does not have an account with Kodak or its subsidiaries which is past due, the 2 percent cash discount allowance is based on the net amount of the invoice ("invoice total") and will be given for payment of invoices received by Kodak on or before the 15th day after the date of invoice. However, there will be no 2% cash discount if payment is made via credit card. Subject to Kodak Credit Department approval, credit card payments via VISA, Mastercard and American Express may be accepted, although additional service fees may apply. If not discounted, invoices are due for payment on a net basis within 30 days after the date of invoice. No additional discounts or charge backs are allowed for early payment anticipation. All remittances should be made to the address as shown on the invoice or as indicated by our Regional Credit Office.

### Billing Disputes

Claims for disputed early payment discounts, promotion expenses, rebates, allowances and any billing errors must be received along with complete documentation within 3 months from the invoice date or, if applicable, the promotion completion date. Any claims submitted after this 3-month period will be void and non-redeemable.

### Taxes

All taxes extra if applicable.

### Variation in Film Quantity

It is necessary from a manufacturing standpoint that we reserve the right to furnish, in some instances, shorter length rolls than the standard sales length. Short length rolls will be supplied only for those items priced per foot. Items priced per roll will be supplied in standard sales lengths. Short length rolls will be billed accordingly on a footage basis and, in addition, a quantity variation of plus or minus 10 percent from the footage ordered will apply. A minus 10 percent quantity variation will also apply to all nonfactory stocked films whether priced per roll or per foot (FTO, Finish-to-Order Items).

### Language

The parties hereto have expressly requested that these general terms and conditions of sale and all related documents be drafted in English. Les parties aux présentes ont expressément requis que les présentes modalités et conditions générales de vente ainsi que tous les documents qui s'y rattachent soient rédigés en anglais.

## Ordering Instructions

### Ordering Instructions:

To order Motion Picture Products within

Canada, please contact one of the following:

TOLL FREE NUMBER: 1-800-621-FILM (3456)

TOLL FREE FAX NUMBER: 1-800-648-9805

EMAIL: EIAmericas@kodak.com

Eastern Canada Distributor serving Quebec

MELS

2600 WILLIAM TREMBLAY ST, SUITE 150

MONTREAL, QC H1Y 3J2

TEL: 514 390-3294

EMAIL: FILM@MELS-STUDIOS.COM

### Ordering Instructions

1. To facilitate prompt handling, be sure "Entertainment Imaging" is included in the address and that only items in this price schedule are included on your order.
2. When ordering, be sure to indicate CAT No. and product description.

Example: For goods priced per roll, a typical order would read:

**CAT No. 845 2062**, 50 rolls 16 mm KODAK VISION3 500T Color Negative Film 7219, camera spool, perforated one edge, B wind, 100 ft, SP455

Generally, all 16 mm Intermediate and Print Films are packaged 2 rolls per can. Minimum orders should be for 2 rolls or multiples thereof.

3. The perforation type and pitch information shown after each item is the one that will be supplied unless otherwise specified. In general, all variations not listed are either not available or available on a special order basis. For additional technical information, telephone or write to the nearest Entertainment Imaging office. It is our intention to maintain a factory stock of all of the films listed herein, unless otherwise indicated by an "\*". This symbol indicated that the product is a non-stocked special order item.
4. If available, non-factory stocked items will be supplied in accordance with our standard practices and also will be subject to minimum-order quantities and delay in delivery. To determine availability, requests should be directed to Kodak Customer Service.
5. On 16mm films perforated one edge, and certain 35mm films, be sure to specify the winding designation. This determines which edge contains the perforations. The type of equipment upon which the film is to be used dictates the winding required.
6. Clearly indicate any special transportation instruction. Otherwise, normal surface transportation will apply.

Running Time / Length Conversion Table										
Length (feet & meters)	Super 8				16mm		35mm		65mm	
	18 FPS	24 FPS	25 FPS	36 FPS	24 FPS	25 FPS	24 FPS	25 FPS	24 FPS	25 FPS
	Running Time in Minutes / Seconds									
50ft / 15.24 meters	3m 20s	2m 30s	2m 24s	1m 40s	-	-	-	-	-	-
100ft / 30.48 meters	-	-	-	-	2m 46s	2m 40s	-	-	-	-
200ft / 60.96 meters	-	-	-	-	-	-	2m 13s	2m 8s	-	-
400ft / 121.92 meters	-	-	-	-	11m 6s	10m 40s	4m 26s	4m 16s	3m 33s	3m 24s
500ft / 152.4 meters	-	-	-	-	-	-	-	-	4m 26s	4m 16s
1000ft / 304.08 meters	-	-	-	-	-	-	11m 6s	10m 40s	8m 53s	8m 32s
Super 8 @ 18 FPS = 15 ft/min							16mm @ 25 FPS = 37.5 ft/min			
Super 8 @ 24 FPS = 20 ft/min							35mm @ 24 FPS = 90 ft/min			
Super 8 @ 25 FPS = 20.8 ft/min							35mm @ 25 FPS = 93.8 ft/min			
Super 8 @ 36 FPS = 30 ft/min							65mm @ 24 FPS = 112.7 ft/min			
16mm @ 24 FPS = 36 ft/min							65mm @ 25 FPS = 117.6 ft/min			
NOTE: The calculated times in the chart above should be used as reference only. Your actual time may be slightly different.										

# General Terms and Conditions—Continued

## Winding Designations / Exposure Index / Perforation Types

**Winding Designations**—A plastic core is normally used with all 16 mm films in lengths over 200 feet and with all 35 mm films in lengths over 100 feet. Camera spools are normally supplied with 16 mm x 100 ft rolls.

It is necessary to designate the desired winding for 16 mm film perforated one edge and for 35 mm film with 16 mm and 8 mm perforations. Proper choice of winding depends on the equipment upon which the film is to be used. The following sketches illustrate the various windings:

16 mm Winding A

16 mm Winding B

In the above sketches the film is wound on cores. When the roll is held so that the outside leader or head end of the film leaves the roll at the top and toward the right, Winding A has the perforations along the edge of the film toward the observer and Winding B has the perforations along the edge away from the observer.

**Exposure Index**—Where applicable, the exposure index is shown for both daylight and tungsten light exposure.

### Perforation Types

#### 35 mm and 65 mm End Use

1. BH-1870. 35 mm Bell-Howell film negative perforations with a pitch measurement of 0.1870" (long pitch) [SMPTE 93-2005]
2. BH-1866. 35 mm Bell-Howell film negative perforations with a pitch measurement of 0.1866" (short pitch) [SMPTE 93-2005]
3. KS-1870. 35 mm and 65 mm Kodak Standard positive perforations with a pitch measurement of 0.1870" (long pitch) [SMPTE 145-2004; SMPTE 139-2003]
4. KS-1866. 35 mm and 65 mm Kodak Standard positive perforations with a pitch measurement of 0.1866" (short pitch) [SMPTE 145-2004; SMPTE 139-2003]
5. DH-1870. 35 mm Dubray-Howell film perforations with a pitch measurement of 0.1870" (long pitch) [SMPTE 237-2003]
6. KS-1870. 70 mm film perforated 65 mm Kodak Standard positive perforations with a pitch measurement of 0.1870" (long pitch) [SMPTE 119-2004]

#### 16 mm End Use

7. 2R-2994. 16 mm film perforated two edges with a perforation pitch of 0.2994" (short pitch) [SMPTE 109-2003]
8. 2R-3000. 16 mm film perforated two edges with a perforation pitch of 0.3000" (long pitch) [SMPTE 109-2003]
9. 1R-2994. 16 mm film perforated one edge with a perforation pitch of 0.2994" (short pitch) [SMPTE 109-2003]
10. 3R-2994. 35 mm film perforated 16 mm with a perforation pitch of 0.2994" (short pitch) [SMPTE 171-2001]
11. 1R-3000. 16 mm film perforated one edge with a perforation pitch of 0.3000" (long pitch) [SMPTE 109-2003]
12. 3R-3000. 35 mm film perforated 16 mm with a perforation pitch of 0.2994" (long pitch) [SMPTE 171-2001]

#### Super 8 and 8 mm End Use

13. 2R-1500. 16 mm film perforated two edges with perforation pitch of 0.1500" [SMPTE 239-2004]
14. 1R-1667. 8 mm film perforated super 8 one edge with a perforation pitch of 0.1667" (long pitch) [SMPTE 149-2004]
15. 2R-1664 (1-4). 16 mm film perforated super 8 two edges in the 1-4 position with a perforation pitch of 0.1664" (short pitch) [SMPTE 168-2001]
16. 2R-1664 (1-3). 16 mm film perforated super 8 two edges in the 1-3 position with a perforation pitch of 0.1664" (short pitch) [SMPTE 151-2004]
17. 2R-1664. 35 mm film perforated super 8 two edges in the 1-0 position with a perforation pitch of 0.1664" (short pitch) [SMPTE 169-2002]
18. 5R-1667. 35 mm film perforated super 8 in the 1-3-5-7-0 position with a perforation pitch of 0.1667" (long pitch) [SMPTE 165-1999\_archive]

**Note:** For other perforation types of formats, consult your Entertainment Imaging office.

## Placing an Order

**Monday - Friday, 8:00 am to 5:00 pm Eastern Time**

Call Kodak Customer Service (800) 621-FILM (3456)

Fax Orders: (800) 648-9805

Please have the following information available:

1. The CAT Nos. of the items you want to purchase if you are placing your order by telephone.
2. The number of rolls or footage you want to purchase.

**Ordering Quantities—For faster service and easier handling, case-lot quantities should be ordered whenever possible.**

<b>Film Width</b>	<b>Film Type</b>	<b>Roll Length</b>	<b>Case Quantity</b>	<b>Approx Case Weight</b>

# How to read a Kodak film can label

## Film sizes

# PERFORATIONS

**Bell & Howell - "Negative"**  
perforation used on most camera negative films. Evolved from early round perforations.

**Kodak Standard - "Positive"**  
perforation. Large size, rounded corners are used for extra strength. Used primarily for release prints.

16 mm perforations - are the same size and shape for all film types.

"G" - is a measure of how straight the perforations are in line with each other.

Dimension	PERFORATION TYPE					
	Bell & Howell <sup>(N)</sup> Inches	mm	Kodak Standard <sup>(P)</sup> Inches	mm	16 Millimeter Inches	mm
C	0.110	2.794	0.110	2.794	0.072	1.829
D	0.073	1.854	0.078	1.981	0.050	1.270
G	0.001	0.03	0.001	0.03	0.001	0.250
H	0.082	2.08				
R			0.020	0.510	0.010	0.250

## SPOOLS

**R-90—16 mm**  
3.615-in. (92 mm) OD metal camera spool. Square hole with single keyway in both flanges. Center hole aligned on both flanges. For 100-ft. (30 m) 16 mm film loads.

**S-83—35 mm**  
3.62-in. (93 mm) OD metal camera spool. Square hole with single keyway in both flanges. Center hole aligned on both flanges. For 100- and 150-ft. (30 m and 46 m) film loads.

## CORES

**Type P Core—65 mm**  
3-in. (76 mm) OD plastic core. Used for various film lengths and codes.

**Type Y and EE Cores—35 mm**  
3-in. (76 mm) OD plastic core. Used for various film lengths and codes.

**Type U Core—35 mm**  
2-in. (51 mm) OD plastic core. Used with various film lengths and codes.

**Type T Core—16 mm**  
2-in. (51 mm) OD, 1-in. (25.4 mm) ID plastic core. Used with most 16 mm.

**Type Z Core—16 mm**  
3-in. (76 mm) OD plastic core. Used with camera and print films in rolls longer than 400 ft. (122 m)

## WINDINGS

**16 mm Winding A**  
Emulsion side in. Used for contact printing, in some sound recorders and A-MINIMA cameras.

**16 mm Winding B**  
Emulsion side in. Used for camera film, Super 16 camera film, optical prints, and on bidirectional printers.

## KODAK VISION3 500T Color Negative Film 5219 / 7219

VISION3 500T Film gives you more control and flexibility at every phase of the filmmaking process in both digital and traditional workflows. Kodak's proprietary, advanced Dye Layering Technology (DLT) gives noticeably reduced grain in shadows so you can push the boundaries of exposure further and get excellent results. In addition, when scanning low-light scenes, VISION3 500T Film yields higher signal-to-noise ratios for unprecedented image quality. Extended highlight latitude gives you greater flexibility when lighting extreme situations, and lets you pull even more detail out of highlights.

### KODAK VISION3 250D Color Negative Film 5207 / 7207

This film offers outstanding performance in the extremes of exposure, including increased highlight latitude, so you can move faster on the set and pull more detail out of the highlights in post. You'll also see reduced grain in shadows, so you can push the boundaries of underexposure and still get outstanding results. It also works seamlessly in digital post, so you can employ a workflow that combines the best of both worlds for exceptional efficiency and image quality. EI 250 (Daylight), EI 64 with 80A Filter (Tungsten).

### KODAK VISION3 200T Color Negative Film 5213 / 7213

KODAK VISION3 Color Negative Film 5213/7213 is a 200 speed, tungsten balanced film that performs superbly in both controlled interiors and in challenging high-contrast exteriors. It features increased highlight latitude, so you can move faster on the set and pull more detail out of highlights. You will see reduced grain in shadows so you can push the boundaries of under-exposure and still get outstanding results. 5213/7213 delivers the image structure of a 100 speed film with the versatility of a 200 speed product - offering you the benefits of two films in one. The product was designed to work seamlessly in digital post, so you can employ a workflow that combines the best of both worlds for exceptional efficiency and image quality.

### KODAK VISION3 50D Color Negative Film 5203 / 7203

KODAK VISION3 50D Color Negative Film 5203/7203 is a low speed daylight-balanced addition to the VISION3 Film portfolio offering the world's finest grain to ensure a pristine, clean image that is full of color and detail. Like other films in the VISION3 Film family, VISION3 50D Film features unrivaled highlight latitude, flexibility in postproduction, and proven archival stability. The expanded dynamic range allows for increased creative control in the extremes of exposure, especially high contrast daylight exteriors. Advances in grain and sharpness along with increased exposure latitude also make this film ideal for recorder output.

## KODAK EKTACHROME 100D Color Reversal Film 7294

---

KODAK EKTACHROME 100D Color Reversal Film / 7294 is a 100-speed, color reversal motion picture camera film intended for photography under daylight illumination (5500K). It offers a moderately enhanced color saturation performance while maintaining a neutral gray scale and accurate flesh reproduction. 7294 Film has exceptional sharpness, and its grain performance is excellent. This film also offers very strong reciprocity, uniformity, and keeping stability. 7294 Film offers outstanding results in outdoor and studio applications where moderate color saturation is desired. It is excellent for advertising, nature cinematography, documentaries, music videos, and is especially good for telecine transfers and television filming. It can also be projected.

## EASTMAN DOUBLE-X Negative Film 5222 / 7222

A high-speed, camera negative film with excellent image structure characteristics designed for general production use both outdoors and in the studio. This film includes a scratch-resistant backing and a process-surviving top layer, which allow smooth camera transport and low camera noise along with robust raw stock keeping and minimized risk of ferrotyping. EI 250 (Daylight) without Filter, EI 200 (Tungsten) without Filter.

INTERMEDIATE FILMS

# Sound Recording Films

Product Name	CAT No.	Min Order Qty	Net Unit Price Qty	CAD List Per Sales Unit	Effective List Date
--------------	---------	---------------	--------------------	-------------------------	---------------------

## KODAK Panchromatic Sound Recording Film 2374

A process-surviving antistat incorporated in the gray ESTAR base reduces the propensity for dirt and static marks in printing. This, and scratch resistant base and emulsion surface coatings, improve the film's durability offering opportunities for increased yields in labs. Enhanced acutance and sharpness of the film yields excellent signal to noise performance, high frequency response and sound quality in both digital and analog tracks.

### KODAK Panchromatic Sound Recording Film 2374 (ESTAR Gray Base)

KODAK Panchromatic Sound Recording Film 2374 / E / SP683 / ESTAR Gray Base / 35 mm x 2180 ft roll / On Core / KS-1866  
**1961473** 1 1+ \$678.97 09/11/2018

## EASTMAN EXR Sound Recording Film 2378 / 3378

This black-and-white film, also on gray ESTAR base with process surviving antistat is orthochromatically sensitized to accept both analog and digital sound. Its high speed and contrast provide exceptional recording latitude. Designed for the familiar D-97 process, this film's D-min (base + fog) has minimal sensitivity to process variations, and the constant low D-min makes it easy to use in a standard printer setup.

### EASTMAN EXR Sound Recording Film 2378 (ESTAR Base)

EASTMAN EXR Sound Recording Film 2378 / E / SRF668 / ESTAR Base / 35 mm x 2150 ft roll / On Core / KS-1866

### KODAK WRATTEN 2 OPTICAL FILTERS

- Rigid/durable
- Easy to handle
- Color consistent today as well as 6 months from now.

The following chart reflects the discounts that apply when purchased in the quantity stated. Discount applies to any combination of filter codes for a given size. For questions and ordering information, please contact your Kodak Customer Service Representative at 1-800-621-FILM.

Format Description	Qty	Discount	Qty	Discount
75 mm (MPG3 950)	50-99	15%	100+	30%
100 mm (MPG3 951)	50-99	15%	100+	30%
100 x 300 mm (MPG3 965)	20-29	15%	30+	30%

**Basic Color Filters** — Used to alter the color wavelength of light.

Filter No.	Description/Use	75 mm Square CAD <b>\$52.14 ea</b>	100 mm Square CAD <b>\$80.25 ea</b>	100 x 300 mm Rectangle CAD <b>\$131.05 ea</b>
2E	Pale yellow. Absorbs more ultraviolet radiation than No. 2A.	8301285	1329481	8930406
8	Yellow. Transmits less blue than No. 3.	8029621		
29	Red. Color separation with Nos. 47 and 61 and tricolor printing work.	1634773	8935645	1365188
47	Blue tricolor. Color separation work with Nos. 29 and 61.	1642701		
99	Green. Equivalent to No. 61 plus No. 16 filter		8166993	

**Special Dye Color Filters** — Color filters that incorporate rare dye materials. Used to alter the color wavelength of light.

Filter No.	Description/Use	75 mm Square <b>\$106.35 ea</b>
61	Deep green tricolor. Tricolor work with Nos. 29 and 47	8467995

**Color Conversion Filters** — Enable significant adjustments in the color temperature of the illumination as required (e.g., daylight to artificial light).

Filter No.	Description/Use	75 mm Square <b>\$52.14 ea</b>
85	85, 85B, 85C, 85N3, 85N6, 85N9, Amber series of conversion filter for use with color films.	8533556

## KODAK Motion Picture Accessories—Continued

### KODAK WRATTEN 2 OPTICAL FILTERS—continued

**Neutral Density No. 96 Filters** — Used to reduce the intensity of light by a definite ratio, without affecting the tonal rendition of colors. Neutrality is superb only in the visible spectrum.

Filter No.	% Transmission	75 mm Square CAD <b>\$90.27 ea</b>	100 mm Square CAD <b>\$140.43 ea</b>	100 x 300 mm Rectangle CAD <b>\$261.73 ea</b>
0.60	25.0	8602401	1195890	1102755
0.90	13.0	1964741	—	8118192

### Safelight Filters

The following safelight filters are used in connection with handling various types of motion picture films. For specific recommendations on each film product, suggested bulb sizes, safe working distances, and restrictions covering the use of safelights, reference should be made to the individual specification sheet for each film product.
